Projects

Limesurvey Plugin
- Open-source plugin that integrates the Twilio service to allow users to schedule and send surveys via text. The plugin includes a simple UI and is user-friendly.
- Php, HTML, CSS

Maya Wine Merchants Website
- Wire-framed, designed, and developed multi-page website with animations and intuitive social media sharing capabilities. Integrated other API's to enhance website capabilities.
- HTML5/CSS, jQuery

Piazza ML
- Built program that used machine learning to categorize posts on an online forum based on key words.
- C++

Cache Simulator
- Built program that simulated a CPU cache. As the processor simulator executes an assembly-language program, it accesses instructions and data. These accesses are serviced by the cache, which transfers data to/from memory as needed.
- C

SQL
- Built functioning database that takes SQL commands.
- C++

Languages and Skills

- C++, C, SQL, HTML5, CSS, Php, Javascript, jQuery, React, Python, R, Tidyverse
- MS Office Suite, Google Drive, SketchApp, Git, Node.js
- Agile, Jira, Trello

Activities

- Pi Kappa Phi Fraternity, Mental Health Chair

Charity

Khusi Hona, 2016
Fundraised to travel and help fund micro projects in India. Worked other organizations through educational aid, technology, and shelter projects.
